What's on the Tray? **Instructions**

Cut out the items, laminate and add Velcro for multiple use. The tray picture can also be laminated with Velcro added.

How to Play

Step One: Place a number of items on the tray.

Step Two: Allow the player(s) a set amount of time to look at the items on the tray, e.g. one minute.

Step Three: Cover the items on the tray.

Step Four: Ask the player(s) to recall all the items they can remember. If able, the player could also write their answers down. The player who remembers the most items wins!

Alternative Step Four: Remove one of the items from the tray. Uncover the remaining items and ask the player(s) which item is missing.
